

What a successful 2026 looks like for Bitcoin for the Arts.

HEADLINE GOAL

Fund **50 working artists** with Bitcoin grants of **\$500–\$2,000 each** by December 31, 2026.

WHY THIS NUMBER

Federal arts funding is in structural retreat — the NEA has been targeted for elimination in two consecutive federal budgets, state arts appropriations are projected to drop 7.7% nationally for FY2026, and the ARPA stimulus dollars that propped up the field through 2024 are now gone. Working artists are exposed.

Funding 50 artists this year is not a vanity metric. It is the smallest scale at which BFTA proves the model: that a Bitcoin-funded 501(c)(3) can deliver grants reliably, transparently, and at a cadence that matters — without depending on the institutional rails that are failing the field.

THE PLAN, BY THE NUMBERS

	Floor scenario	Stretch scenario
Average grant size range \$500–\$2,000	\$1,000	\$2,000
Direct artist grants 55%	\$50,000	\$100,000
Programs 30% workshops, events, research, this fundraiser	\$27,300	\$54,600
Operations 10% software, banking, admin	\$9,100	\$18,200
HODL Vault 5% long-term Bitcoin endowment	\$4,550	\$9,100
Total raise required	\$91,000	\$182,000

Hitting **\$91K** funds the headline goal at the floor scenario — 50 artists at \$1,000 each, with the rest of the allocation budgeted for programs, operations, and the long-term endowment. Hitting **\$182K** doubles every artist's grant. Either way, every dollar maps to a transparent allocation published quarterly at bitcoinforthearts.org/transparency.
